REPUBLIC OF SOUTH AFRICA

PRESENTATION OUTLINE

- **Introduction**
- **Legal mandate**
- **Objectives**
- **Partners**
- **leC roll out status**
- **Pictures**

INTRODUCTION

- leC is a government programme aimed at addressing energy access, poverty alleviation, job creation and promote rural enterprise development
- Government prioritized rural development to address socio-economic conditions through Comprehensive Rural Development Programme
- leC is One-stop energy shop that provides energy solutions to communities
- Success of leC relies on solid partnership with the industry and other stakeholders.

INTRODUCTION CONT

- The leC programme has been on a pilot or experimental basis and **13** leCs have been established. Construction of 2 new projects have been completed. 3 projects are in planning stage.
- The leC project focus on provision of liquid fuels and other energy products to remote rural and township communities.

LEGISLATIVE MANDATE

- **WHITE PAPER ON ENERGY POLICY:** (increased affordable energy services to disadvantaged communities, stimulate economic development by creating investor friendly climate, and securing energy supply by encouraging diversity of energy supplies and energy carriers).
- The DoE is finalizing a draft strategy which will serve as a blue print to roll out the leCs.
- The strategy addresses issues of ownership, governance, funding and sustainability of the leCs.

OBJECTIVES

- Energy access to rural and township areas
- Stimulate rural enterprise development
- Job creation and poverty alleviation
