

SOUTH AFRICAN RENEWABLE ENERGY MASTER PLAN PLEDGE

We, the undersigned, are members of the executive oversight committee representatives of the constituencies supporting the South African Renewable Energy Masterplan (SAREM) social compact; government, industry, labour, and community. We wish to express our support for the launch and implementation of the South African Renewable Energy Masterplan.

We acknowledge that SAREM is a product of extensive consultation and collaboration across sectors and is rooted in the shared vision to achieve a well-developed renewable energy and storage value chain that enables a transformed industry and inclusive industrialisation.

As a social compact, SAREM represents more than the collection of individual actions toward economic development and industrialisation. It is the collective commitment to work together to grow the renewable energy sector, deliver decent jobs, skills, investment, transformation and localisation - while meeting our country's priorities in energy, climate, and just transition.

We recognise the importance of coordinated commitments and action. Individually and collectively, we are committed to supporting the implementation of SAREM through joint planning, engagement, and practical cooperation. We also affirm our commitment to keep our constituencies informed and mobilised to contribute meaningfully to this work and the realisation of its objectives.

This letter signifies shared confidence in the vision and direction of SAREM and our commitment to playing an active role in its delivery.
